

- Crear un repositorio

The screenshot shows the GitHub 'Create a new repository' page. At the top, there's a navigation bar with the GitHub logo, a search bar, and links for 'Pull requests', 'Issues', 'Marketplace', and 'Explore'. Below this, the main heading is 'Create a new repository', followed by a subtext: 'A repository contains all project files, including the revision history. Already have a project repository elsewhere? [Import a repository.](#)'

The form contains the following fields and options:

- Owner:** A dropdown menu showing 'Nidrax'.
- Repository name:** A text input field containing 'example_calculadora' with a green checkmark.
- Description (optional):** An empty text input field.
- Visibility:** Two radio buttons. 'Public' is selected, with the text 'Anyone on the internet can see this repository. You choose who can commit.' 'Private' is unselected, with the text 'You choose who can see and commit to this repository.'
- Initialize this repository with:** A section with the text 'Skip this step if you're importing an existing repository.' and a checkbox labeled 'Add a README file' which is currently unchecked.

The screenshot shows the GitHub repository page for 'Nidrax / example_calculadora'. The repository is public. The page layout includes a header with the repository name, a 'Pin' button, and statistics: 'Unwatch 1', 'Fork 0', and 'Star 0'. Below the header is a navigation bar with links for 'Code', 'Issues', 'Pull requests', 'Actions', 'Projects', 'Wiki', 'Security', 'Insights', and 'Settings'. The 'Code' tab is selected.

The main content area shows the repository's commit history and files. The first commit is 'Nidrax Initial commit' with the hash 'a95dc38' and the message 'Initial commit'. Below this, the 'README.md' file is displayed, containing the text 'example_calculadora'. On the right side, there's an 'About' section with the text 'No description, website, or topics provided.' and statistics: '0 stars', '1 watching', and '0 forks'. Below this are sections for 'Releases' (with the text 'No releases published' and a link 'Create a new release') and 'Packages' (with the text 'No packages published').

- Agregar un README

github.com/new

Description (optional)

☒ Public
Anyone on the internet can see this repository. You choose who can commit.

☐ Private
You choose who can see and commit to this repository.

Initialize this repository with:
Skip this step if you're importing an existing repository.

☒ Add a README file
This is where you can write a long description for your project. [Learn more.](#)

Add .gitignore
Choose which files not to track from a list of templates. [Learn more.](#)
.gitignore template: None ▾

Choose a license
A license tells others what they can and can't do with your code. [Learn more.](#)
License: None ▾

This will set `main` as the default branch. Change the default name in your [settings](#).

① You are creating a public repository in your personal account.

- Agregar un gitignore para C#

example_calculadora / .gitignore in main

Cancel changes Want to use a .gitignore template? Choose .gitignore: None ▾
